

ÇANKIRI KARATEKİN UNIVERSITY ÇERKEŞ VOCATIONAL COLLEGE (ÇANKIRI - TURKEY)

Çerkeş is the biggest town of Çankırı where is 121 km far away from Çankırı. Çankırı Karatekin University's Çerkeş Vocational College was established in 2015. Çerkeş Vocational College has approximately 15000 square meter indoor space and 10000 square meter outdoor space.

One of its first programs which has been planned to be opened in 2016-2017 Academic Year is the program of industrial glass and ceramics. One of the most significant reasons to open this department is the demand of the management of Yıldızlar Holding's Granite and Ceramics Factory in Kurşunlu which is the biggest one in Europe. It has been planned that department students will perform their interns and applications related to their fields at Yıldızlar Holding's Granite and Ceramics Factory then after their graduation, they will be employed in the same factory. AYTAÇ integrated meat plants is one of the biggest plants in Turkey which is located in Çerkeş. The town has an important potential in terms of livestock and agriculture.

The programs planned to be opened soon are Milk and Livestock, Industrial Poultry, Department of Food Technology.
